

Removing Airwatch MDM on Android Device

1. Go into “Settings” and then select “Apps”
2. Depending upon the Android device, there could be 1 or 2 applications that need to be uninstalled.

3. “Agent” will be installed on all Android devices, and the “AirWatch Samsung ELM Service” will be installed on some Samsung Android devices.

4. Select "Uninstall" for all applicable "Agent" and "AirWatch Samsung ELM Service" applications installed.

5. After clicking "Uninstall", on the next screen select "Deactivate and Uninstall"

6. If applicable for Samsung devices, select the "AirWatch Samsung ELM Service" and follow the same "Deactivate and Uninstall" process as above.
